1 Accessing the System

1.1 Log In

To start accessing the eSTS system, open up Google Chrome browser and type in the URL:
<https://ests.lpj.gov.my/>

Please use Google Chrome as a browser.

This will bring up eSTS system main page as shown as below:

Welcome to eSTS

eSTS is an initiative action by Johor Port Authority (JPA) to develop a comprehensive end-to-end online system for Ship To Ship license and operation. This new system allows applicants/ STS operator / STS agent to complete their application under one roof system with other government agencies collaboration. E STS involve a process of application, monitoring, and managing data and analysis continuously from end-to-end procedure (licensing and operation).

The innovation and introduction of the E STS will be the turning point of the abolition of the existing ship to ship license through Marine Management System (MMS)

4 Master Setup

This section is to manage master setup.

4.1 Unit Of Measure

4.1.1 Add new unit of measure

In Master Setup Menu, click Unit of Measure

List of unit of measure will be displayed as below:

Unit Of Measure			
Home / Unit Of Measure			
Enter text to search...			
New	UOM Code	UOM Desc	Is Active
New	MT	Metric Tone	✓

Click [New] to add unit of measure.

New	UOM Code	UOM Desc	Is Active
	MT	Metric Tone	✓

UOM Code: UOM Desc:

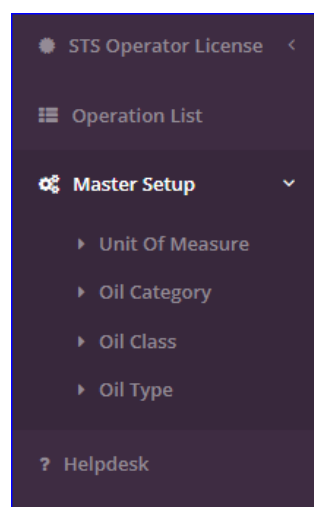

Is Active: ☒

Update Cancel

Enter [UOMCode] and [UOMDesc], then click [Update] and new unit of measure will be listed on the grid.

4.1.2 Update unit of measure

In Master Setup Menu, click Unit of Measure

List of unit of measure will be displayed as below:

New	UOM Code	UOM Desc	Is Active
	MT	Metric Tone	✓

UOM Code: UOM Desc:

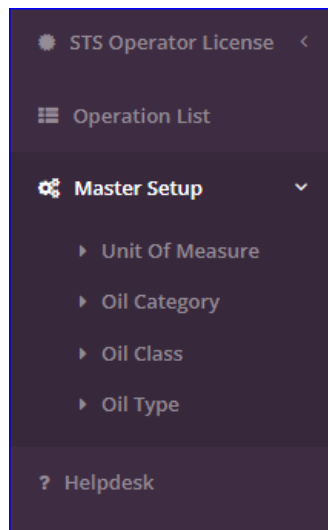

Is Active: ☒

Update Cancel

Click  to edit unit of measure. Enter [UOMCode] and [UOMDesc], then click [Update].

4.1.3 Delete unit of measure

In Master Setup Menu, click Unit of Measure

List of unit of measure will be displayed as below:

A screenshot of the 'Unit Of Measure' form. At the top, there's a search bar with the placeholder text 'Enter text to search...'. Below the search bar is a table with four columns: 'New', 'UOM Code', 'UOM Desc', and 'Is Active'. The table contains one row with the values 'MT', 'Metric Tone', and a checkmark. Below the table, there are input fields for 'UOM Code' (containing 'MT') and 'UOM Desc' (containing 'Metric Tone'). There is also a checkbox for 'Is Active' which is checked. At the bottom right, there are 'Update' and 'Cancel' buttons.

Click [] to delete unit of measure.

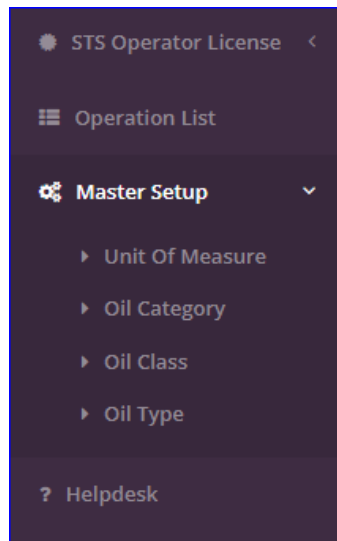

A screenshot of a 'Confirm Delete' dialog box. The text inside the box says 'ests.lpj.gov.my says' and 'Confirm Delete?'. At the bottom right, there are two buttons: 'OK' and 'Cancel'.

Click [] button to proceed delete the unit of measure.

4.2 Oil Category

4.2.1 Add new oil category

In Master Setup Menu, click Oil Category

List of oil category will be displayed as below:

Oil Category		
Home / Oil Category		
Enter text to search...		
New	Oil Category	Is Active
New Edit Delete	HEAVY GRADE OIL	✓
New Edit Delete	LIGHT GRADE OIL	✓

Click [New] to add oil category.

New	UOM Code	UOM Desc	Is Active
	MT	Metric Tone	✓

UOM Code: UOM Desc:

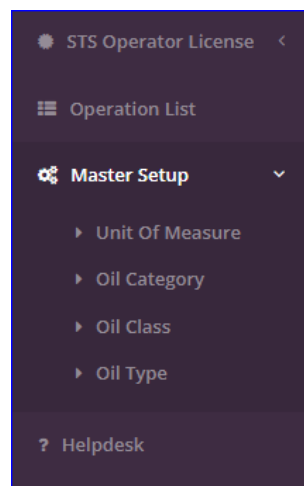

Is Active: ☒

Update Cancel

Enter [Oil Category], then click [Update] and new oil category will be listed on the grid.

4.2.2 Update oil category

In Master Setup Menu, click Oil Category

List of oil category will be displayed as below:

Oil Category

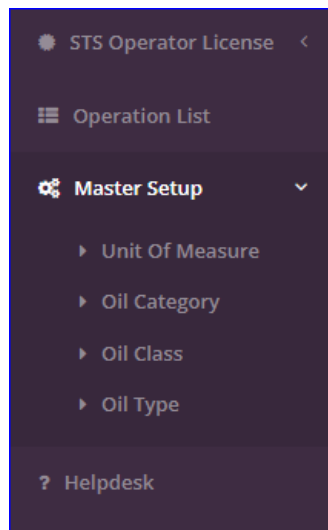

Home / Oil Category

New	Oil Category	Is Active
✎ ✖	HEAVY GRADE OIL	✓
✎ ✖	LIGHT GRADE OIL	✓

Click [] to edit oil category. Enter [Oil Category], then click [Update].

4.2.3 Delete oil category

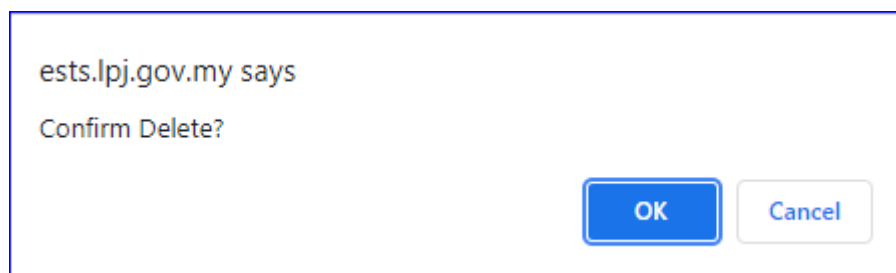

In Master Setup Menu, click Oil Category

List of oil class will be displayed as below:

Oil Category		
Home / Oil Category		
Enter text to search...		
New	Oil Category	Is Active
 	HEAVY GRADE OIL	✓
 	LIGHT GRADE OIL	✓

Click [] to delete oil category.

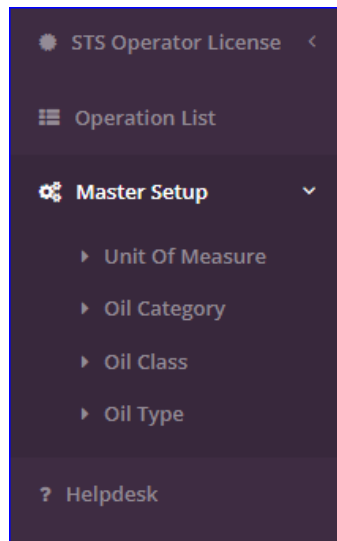

Click [] button to proceed delete the oil category.

4.3 Oil Class

4.3.1 Add new oil class

In Master Setup Menu, click Oil Class

List of oil class will be displayed as below:

Oil Class				
Home / Oil Class				
Enter text to search...				
New	Oil Class	Class	Is Active	
 	KELAS I		1	
 	KELAS II		2	
 	KELAS III		3	
 	KELAS IV		4	

Click [New] to add oil class.

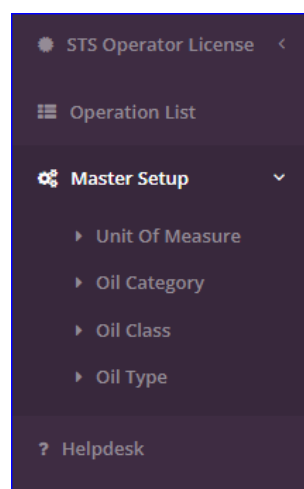

Enter text to search...

New	Oil Class	Class	Is Active
Oil Class:	Class:		
Is Active: ☐			
Update Cancel			
 	KELAS I	1	☒
 	KELAS II	2	☒
 	KELAS III	3	☒
 	KELAS IV	4	☒

Enter [Oil Class] and [Class] then click [Update] and new oil class will be listed on the grid.

4.3.2 Update oil class

In Master Setup Menu, click Oil Class

List of oil class will be displayed as below:

Oil Class

Home / Oil Class

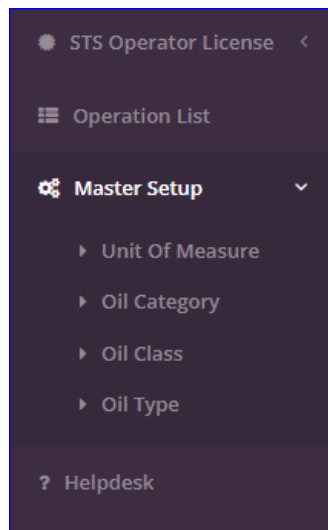

Enter text to search...

New	Oil Class	Class	Is Active
 	KELAS I	1	☒
 	KELAS II	2	☒
 	KELAS III	3	☒
 	KELAS IV	4	☒

Click [] to edit oil class. Enter [Oil Class] and [Class], then click [Update].

4.3.3 Delete oil class

In Master Setup Menu, click Oil Class

List of oil class will be displayed as below:

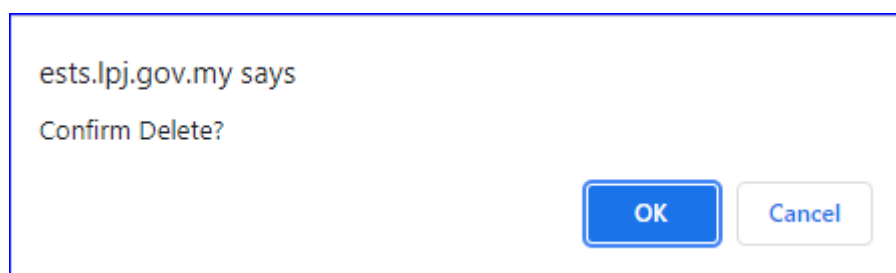

Oil Class

Home / Oil Class

Enter text to search...

New	Oil Class	Class	Is Active
 	KELAS I	1	
 	KELAS II	2	
 	KELAS III	3	
 	KELAS IV	4	

Click [] to delete oil class.

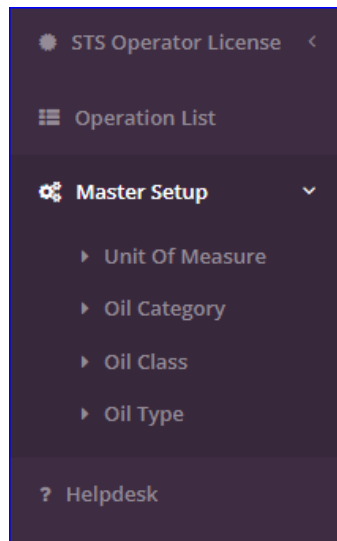

Click [] button to proceed delete the oil class.

4.4 Oil Type

4.4.1 Add new oil type

In Master Setup Menu, click Oil Type

List of oil type will be displayed as below:

Oil Type					
Home / Oil Type					
New	Oil Type Code	Oil Type Desc	Oil Class	Oil Category	Is Active
 	MFO	MARINE FUEL OIL	KELAS III	HEAVY GRADE OIL	

Click [New] to add oil type.

Oil Type

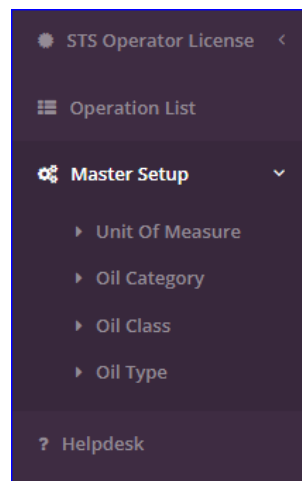

Home / Oil Type

New	Oil Type Code	Oil Type Desc	Oil Class	Oil Category	Is Active
Oil Type Code:		Oil Type Desc:		Oil Category:	
Oil Class:		Oil Category:			
Is Active:	☐				
					Update Cancel
 	MFO	MARINE FUEL OIL	KELAS III	HEAVY GRADE OIL	☒

Enter [Oil Type Code], [Oil Type Desc], select [Oil Class] and [Oil Category] then click [Update] and new oil type will be listed on the grid.

4.4.2 Update oil type

In Master Setup Menu, click Oil Type

List of oil type will be displayed as below:

Oil Type

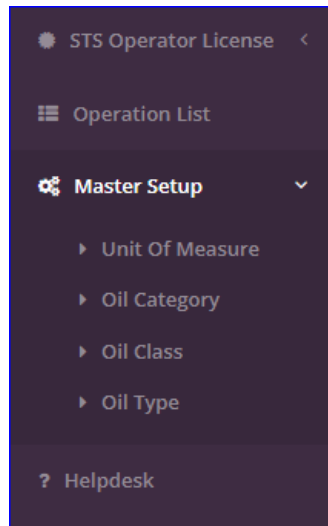

Home / Oil Type

New	Oil Type Code	Oil Type Desc	Oil Class	Oil Category	Is Active
 	MFO	MARINE FUEL OIL	KELAS III	HEAVY GRADE OIL	☒

Click [] to edit oil type. Enter [Oil Type Code], [Oil Type Desc], select [Oil Class] and [Oil Category] then click [Update].

4.4.3 Delete oil type

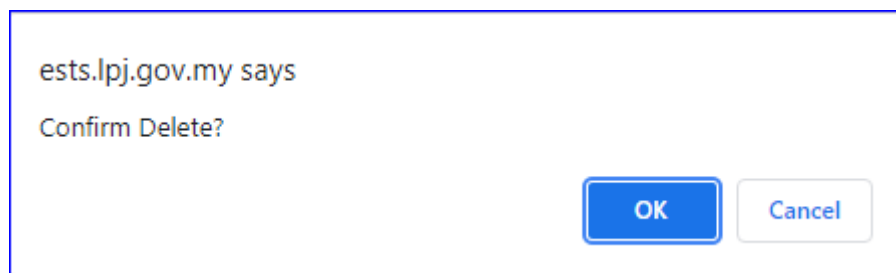

In Master Setup Menu, click Oil Type

List of oil type will be displayed as below:

Oil Type					
Home / Oil Type					
New	Oil Type Code	Oil Type Desc	Oil Class	Oil Category	Is Active
 	MFO	MARINE FUEL OIL	KELAS III	HEAVY GRADE OIL	✓

Click [] to delete oil class.

Click [] button to proceed delete the oil type.
